Contact Email: [alan.monk@microscopewizards.com](mailto:alan.monk@microscopewizards.com)  
Contact Telephone: 07854 977 839

“Conflict Minerals” are minerals mined in conditions of armed conflict and human rights abuses, and which are sold or traded by armed groups. This has for some years been a particular problem in the Democratic Republic of the Congo (DRC). Some of these minerals and the metals created from them (such as tantalum, tin, tungsten and gold) can make their way into the supply chains of the products used around the world, including those in the electronics industry.

Microscope Wizards do not manufacture products directly but ensure that all our Third-Party Suppliers comply with the laws and regulations for Conflict Minerals / 3TG (Tin/Tantalum/Gold) and have their own Conflicts Minerals Statements in place.
